

AN ARIAL VIEW OF PROMISED LAND CAMP

2015

The DRONES are coming!

This summer Norm Franks and his very talented son, Aidan used a high tech drone to video tape PLC. They took various shots of the fun things we do here at the camp and compiled them into a 2 ½ minute video. It looks amazing! You can view it and show it to your friends and family right from our website. Have a look and thanks to Norm and Aidan for such a great job!!

PLC NEWSLETTER 2015

2015 Message from Linda and Henning

Hard to believe that Henning and I just ended our 8th season as owners of Promised Land Camp. This year the weather and water level have been amazing. The commercial fishery did not operate in the winter this year, so the number of walleye being caught increased significantly. Although the regulations enforced last year are still being upheld this year meant that there were not too many keepers. That being said our clients had had a lot of fun and some pretty large fish were caught. No black flies to speak of, but the mosquito population proved to be a little daunting.

Summer fun

The beach was very busy all season long. The trampoline was very active and the new paddle boards were tried by everyone! Some with more success than others!

PLC Ice Fishing

January 2015 opened our ice fishing season with great ice conditions and good weather too! The clients caught a lot of walleye and hardly any perch which is very unusual. This beautiful walleye was caught and the whole camp celebrated! Although there were lots of walleye, not too many over the 18.1 inch size limit. It was a fun season!

What was new in 2015

- Cottage #8 was renovated with a new kitchen, new windows and pine ceiling and wainscoting and pretty much all new furniture too!
- Two new paddle boards were added to the beach toy inventory
- New mattresses and larger BBQ for the beach house
- Repair the retaining wall by the gazebo
- New living room chairs and lazy boy chairs in cottages 1, 2, 3 and 4
- 3 new motors were purchased in the fall for the 40 HP boats and one 25 HP boat
- PLC information booklet was updated with a brief history of the camp owners included

What can you expect in 2016

- Renovate cottage #7 including new kitchen cupboards, windows and some new furniture
- Renovate the fish cleaning hut
- Replace more mattresses.

New motors are on and ready for next season

Nice fish!!!

Fall fishing is great fun!!

New to the camp and bannock making!

Bear in a tree!

This year our clients were able to get an up close experience with a very large bear. It was in a tree near the neighbor's house for over 24 hours, so many pictures were captured.

Henning got out a few more times this year

OTHER EVENTS

A Sad Farewell to Henning's Mom

Henning's Mom passed away this year and although we miss her greatly, she is no longer in pain. Special thanks to those clients who were in camp as we had to leave to attend to her affairs and her funeral. Rest in Peace Anna.

Breathtaking sunsets are a common occurrence here at Promised Land Camp. Come and see for yourself!!

Family Fishing and Fun July and August

Those fishermen who caught keepers were delighted with the size of them! Let's hope that means that we will see even more keepers next year! Remember, if it was easy, it would be called catching~
